

Full HD screen for public environments

MultiQ offers monitors in sizes ranging from 12" to 52", and smaller sized monitors are available (down to 7") on request. Our large-sized monitors are designed to meet the same demands, in terms of quality and durability, as the rest of the MultiQ range.

This model is designed for professional use, with full HD and very high contrast and brightness. Thanks to its sleek, discreet design, it looks great in any interior.

The MultiQ 42P is also easy to mount; the back has VESA standard options for mounting on your wall, ceiling or floor (on a foot). Moreover, with the MultiQ 42P you get fast response time, wide viewing angles and a long backlight lifetime.

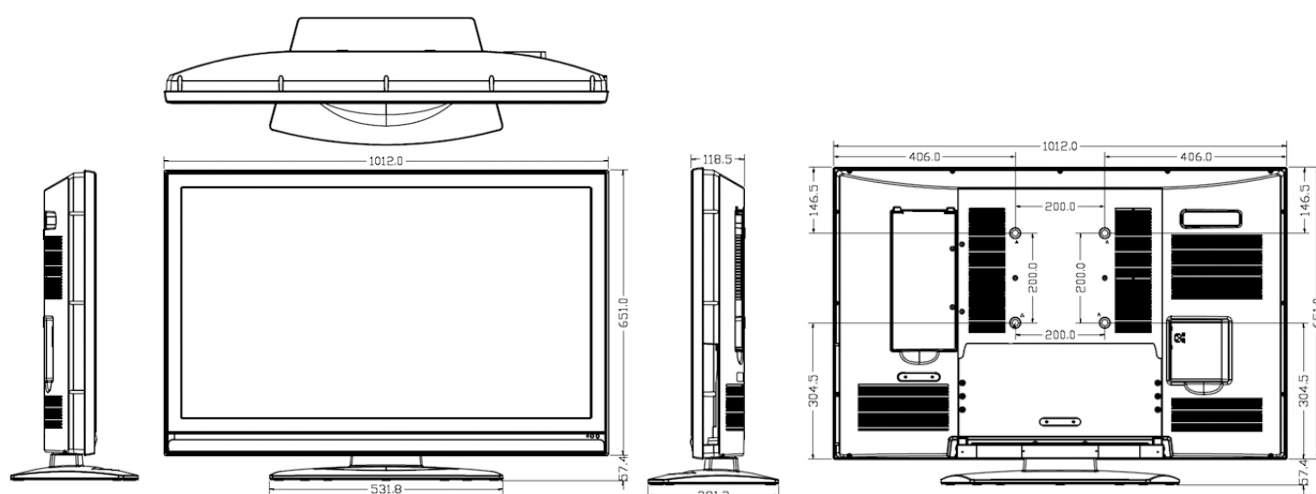

MultiQ 42P
